

Product Name:

Citrus Zest Polish

Characteristic(s):

Light Orange Gel
pH 6.87 (+/-0.2)
Paraben-Free

Skin Type(s):

All

Product Number(s):

VLT0.6402

Product Story:

Zing – Zang – Zoom!

That’s what you will be feeling when you use the Citrus Zest Polish. Sure, you would have the same exhilarating experience if we had created a simple gel with Jojoba Beads and Orange Oil, but don’t you and your skin deserve better?

CoValence developed the Citrus Zest Polish as an honorary companion to your current body care line-up. The essence of the polish is to effectively utilize three physical exfoliants, including a stable Salicylic Acid bead, along with the botanical rich properties of essential oils and extracts.

We know the brute strength of Salicylic Acid when it comes to stimulating new cell growth, but the botanicals are no pansies (sorry to the beautiful pansy flower) when it comes to fighting for your skin – they fight tooth and nail against the environmental stressors that daily bombard your skin. The Citrus Zest Polish is rich with antioxidant and damage repair power demonstrating that no one should ever underestimate the pairing of a Salicylic Acid along with botanicals to help fight for healthier, vibrant skin.

Norman Vincent Peale has this to say about zest – “If you have zest and enthusiasm you attract zest and enthusiasm. Life does give back in kind.”

Obviously, we’re not proclaiming that using Citrus Zest Polish will eliminate the need for Dr. Phil’s expertise, nor your outlook on life will instantly rouse a thriving enthusiasm. But, beautiful, nurtured skin can definitely, *Zing – Zang – Zoom*, encourage you to start moving down a path of passion and zest!

Active Interest(s):

- **Bambusa Arundinacea (Bamboo) Stem Extract** – Natural exfoliant used in scrubs for smoothing and polishing the skin
- **Salicylic Acid** - Beta Hydroxy Acid (BHA), in the stable form of a transparent yellow spherical bead, when rubbed onto the skin breaks easily to release the salicylic acid providing exfoliation, stimulates new cell growth, reduces inflammation
- **Rubus Chamaemorus (Cloudberry) Seed Oil** - Fruit bearing perennial plant related to the raspberry, rich in Essential Fatty Acids (EFAs), phytosterols and antioxidants, emollient
- **Arnica Montana Flower Extract** - Improves cellular respiration and circulation, anti-inflammatory, provides damage repair associated with skin irritations
- **Citrus Aurantium Bergamia (Bergamot) Fruit Oil** - Organic, a natural skin detoxifier, anti-microbial effects

- **Citrus Aurantium Dulcis (Orange) Peel Oil** - Organic, excellent source of vitamin C, antioxidant, anti-inflammatory, anti-bacterial, anti-fungal, astringent properties
- **Citrus Grandis (Grapefruit) Peel Oil** - Nourishing as it is high in flavonoids and vitamin C, antiseptic, astringent, anti-inflammatory, soothes and tones

The Dos:

Massage Citrus Zest Polish in circular motions over body, with water, to promote exfoliation and enhance circulation. Rinse well. Add a cleanser to the Citrus Zest Polish if the desired effect is less physical exfoliation.

The Don'ts:

For external use only. Avoid contact with eyes. Keep out of reach of children.

Notables:

Citrus Zest Polish can be massaged on face with water. When applied to the face, the Citrus Zest Polish can be left on for a minute or two before being rinsed off, in order to get the full benefits of the actives. Add a cleanser to the Citrus Zest Polish if the desired effect is less physical exfoliation.

Product Name: Biscotti Body Oil	Characteristic(s): Clear Liquid pH 4.0 (+/-0.2) Paraben-Free	Skin Type(s): All	Product Number(s): VLT0.6603
---	--	-----------------------------	--

Product Story:

Enriched with a plethora of essential oils, the Biscotti Body Oil is not your typical dry body oil. But, then again, that shouldn't surprise anyone because CoValence never makes anything *typical*.

Highly concentrated in Grape Seed Oil, it effectively helps to repair damaged and stressed tissues, while deeply nourishing the epidermis. After your first application, you will feel more comfortable in your skin, due to the supporting players of six (6) additional essential oils. Over time, the virtues of all of the oils will work together in perfect harmony, reducing the appearance of stretch marks, improving circulation, skin firmness and enhancing barrier function and moisture retention.

Compared to one of the most popular dry body oils on the market, our product testers felt that the light texture of the Biscotti Body Oil created a healthier radiance without leaving a greasy film. They also felt the natural almond, biscotti aromatherapy blend was a pure indulgent way to start and end their hectic days.

In summary, the Biscotti Body Oil creates healthier, more radiant skin with a multi-functional supporting cast of essential oils that collectively fight against skin aging by protecting and nourishing the skin.

It's unanimous – Biscotti Body Oil is not your *typical* body product! Indulge!

Active Interest(s):

- **Vitis Vinifera (Grape) Seed Oil** – Rich in linoleic acid, acts as an emollient and lubricant, antioxidant
- **Borago Officinalis Seed Oil** – Organic, high concentration of Gamma Linolenic Acid (GLA), an Omega 6 Essential Fatty Acid (EFA), anti-inflammatory
- **Calophyllum Inophyllum Seed Oil** - A stimulant for collagen synthesis for use in anti-wrinkle and anti-stretch mark products
- **Melia Azadirachta (Neem) Seed Oil** - Moisturizing, rich in fatty acids and glycerides, promotes healing, anti-bacterial, antiseptic
- **Ribes Nigrum (Black Currant) Seed Oil** - Anti-inflammatory, rich source of Gamma Linolenic Acid (GLA), improves circulation, enhances barrier function, reduces transepidermal water loss
- **Limnanthes Alba (Meadowfoam) Seed Oil** - Moisturizing, adheres to stay on the skin, superior stability prolongs shelf life, forms a barrier on the skin to prevent moisture loss
- **Prunus Amygdalus Amara (Bitter Almond) Kernel Oil** - Stable oil with high levels of oleic acid, unsaturated triglycerides proved moisture, easily absorbed in skin

The Dos:

Massage thoroughly over your body, in the morning or evening. The light texture will absorb quickly, instantly nourishing the skin.

The Don'ts:

For external use only. Avoid contact with eyes. Keep out of reach of children.

Notables:

Biscotti Body Oil was tested in an amber glass bottle + phenolic cap. Due to the quantity of oils, packaging and/or spray pumps should be thoroughly tested prior to purchase.

Product Name: cosmopoli TAN	Characteristic(s): Bronze Lotion pH 6.0 (+/-0.2) Paraben-Free	Skin Type(s): All	Product Number(s): VLT0.6604
--	---	-----------------------------	--

Product Story:

Prior to the 20th Century it was distasteful to be tan due to a bronze skin was associated with the poor who labored outside. Leave it to Coco Chanel to change everyone's perception about flaunting a tan! Urban legend states that in 1923 Coco Chanel was seen leaving a nobleman's yacht with a deep suntan which quickly set a cosmopolitan fashion trend that our *cosmopoli**TAN*** self-tanning body lotion pays homage to today – in the 21st Century.

We all know the dangers of getting a tan the old-fashion "baby oil" way – when you may as well plop yourself on top of your outside grill because either way you would be cooked to a crisp. But, let's face it there is still a euphoric feeling when our skin is bronzed – which is why *cosmopoli**TAN*** was created. CoValence formulated the self-tanning body lotion with a 100% natural and Ecocert approved Dihydroxyacetone (DHA), Vegetan[®]. This natural DHA is not as strong smelling as the more commonly used DHA. However, we did add a hint of a natural, phthalate free fragrance to help guise any residual DHA scent.

Besides the amazing bronze glow that the Vegetan[®] creates, our *cosmopoli**TAN*** is a crowd favorite because of the added mica and pigment which is used as an application guide, to help eliminate any missed areas on the skin. In addition, the extra pigment gives skin an instant bronze hue, while waiting for the DHA to work its magic. Our product testers found that it was best to use a physical exfoliant 12 to 24 hours after the initial application of the *cosmopoli**TAN*** to smooth out the pigment. There are many self-tanners out in the market, but our *cosmopoli**TAN*** hits all the right notes... natural, bronze color (instant and gradual) plus a pleasant, natural scent.

Coco would be so proud!

Active Interest(s):

- **Vegetan[®] (Dihydroxyacetone)** – Natural and Ecocert certified DHA, sunless tanning ingredient that gives a soft bronze color to skin
- **Vaccinium Macrocarpon (Cranberry) Fruit** - Potent antioxidant proanthocyanidins, anti-microbial, nourishing
- **Pepha[®]-Protect (Citrullus Lanatus (Watermelon) Fruit Extract)** - Prevents DNA fragmentation in fibroblasts and keratinocytes, decreases erythema after UV irradiation, protects important cell structures from damage by UV induced free radicals
- **Fructooligosaccharides (D-beta)** - Naturally occurring carbohydrates derived from cane or beet sugar, promotes growth of healthy probiotic bacteria to strengthen skin immunity
- **Erythrose** - Reduces, or even eliminates, the disadvantages of self-tanners, namely an irregular and streaky tan, as well as a drying effect

The Dos:

Evenly apply cosmopoli**TAN** over body (legs, arms and torso) to achieve a natural and healthy tan color. The added pigment works as an application guide to help identify missed areas as well as to give an instant bronze glow to skin.

The Don'ts:

cosmopoli**TAN** was formulated as a body bronzer and should not be applied to the face.

For external use only. Avoid contact with eyes. Keep out of reach of children.
